(54) Title: ATTACHMENT SYSTEM FOR MODULES IN A VEHICLE

(57) Abstract: An attachment system for coupling a module (10) to a rail member (20) on an interior portion of a vehicle is disclosed and includes a latching member (30). The latching member includes a projection (38) configured to operably engage the rail member (20) by rotation of the lever (32). An attachment system for coupling a module (20) to a vehicle is also includes a latch device (30) having a hook member (78) pivotally coupled to a lever (72) so that movement of the lever (72) operates the hook (78) as an over-center device to releasably engage the rail member. An attachment system also includes a flange extending from the latch device and configured to engage a recess on the rail member.

(84) Designated States (unless otherwise indicated, for every kind of regional protection available): ARIPO (BW, GH, GM, KE, LS, MW, MZ, NA, SD, SL, SZ, TZ, UG, ZM, ZW), Eurasian (AM, AZ, BY, KG, KZ, MD, RU, TJ, TM), European (AT, BE, BG, CH, CY, CZ, DE, DK, EE, ES, FI, FR, GB, GR, HU, IE, IT, LU, MC, NL, PL, PT, RO, SE, SI, SK, TR), OAPI (BF, BJ, CF, CG, CI, CM, GA, GN, GQ, GW, ML, MR, NE, SN, TD, TG).

#### Published:

- with international search report
- before the expiration of the time limit for amending the claims and to be republished in the event of receipt of amendments
- (88) Date of publication of the international search report: 13 January 2005

For two-letter codes and other abbreviations, refer to the "Guidance Notes on Codes and Abbreviations" appearing at the beginning of each regular issue of the PCT Gazette.

## **ERNATIONAL SEARCH REPORT**

nional Application No PCT/US2004/013880

A. CLASSIFICATION OF SUBJECT MATTER IPC 7 B60R11/00

According to International Patent Classification (IPC) or to both national classification and IPC

#### B. FIELDS SEARCHED

 $\begin{array}{ll} \text{Minimum documentation searched (classification system followed by classification symbols)} \\ IPC 7 & B60R \end{array}$ 

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

# INTERNATIONAL SEARCH REPORT

Box II	Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)
This Inte	rnational Search Report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:
1.	Claims Nos.: because they relate to subject matter not required to be searched by this Authority, namely:
2.	Claims Nos because they relate to parts of the International Application that do not comply with the prescribed requirements to such an extent that no meaningful International Search can be carried out, specifically:
з. 🗌	Claims Nos because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).
Box III	Observations where unity of invention is lacking (Continuation of item 3 of first sheet)
This Inte	ernational Searching Authority found multiple inventions in this international application, as follows:
	see additional sheet
1.	As all required additional search fees were timely paid by the applicant, this International Search Report covers all searchable claims.
2.	As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3.	As only some of the required additional search fees were timely paid by the applicant, this International Search Report covers only those claims for which fees were paid, specifically claims Nos.:
4. X	No required additional search fees were timely paid by the applicant. Consequently, this International Search Report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:  1-14
Remai	The additional search fees were accompanied by the applicant's protest.  No protest accompanied the payment of additional search fees.

### FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

This International Searching Authority found multiple (groups of) inventions in this international application, as follows:

1. claims: 1-14

Claims 1-7,9-12: Attachment system with at least a projection (foot) to engage with the rail, a slot for rotating the latch device.
Claims 1,8: Attachment system wherein the latch device is configured for concealment beneath a movable panel.
Claims 1,13-14: Attachment system with at least a projection (foot) to engage with the rail and a lever for rotating the latch device.

2. claims: 1,15-16

attachment system with a hook portion

3. claims: 1,17

attachment system with a flange

4. claims: 1,18-20

attachment system with a wing
